Please state your reasons for wanting to serve on the Commission/Board:: I would like to serve my local community by applying my skills to support the efforts of the Community Engagement Commission. This commission is of particular interest to me as I have spent the last 20 years in nonprofit organizations which valued and worked to support all citizens with a focus on increasing opportunities for lower-income communities and communities of color, to bridge the opportunity gap. I know that access to community services and strong social connections are protective factors that leads to improved health, increased longevity and prevention of child abuse and neglect.

What is your view of the role of this Commission/ Board?: My view is that this commission will work as a team to identify, promote and build opportunities for individuals and families living in Roseville -- of all ages, races, ethnicities, and socio-economic levels to more fully access community services and engage more meaningfully with each other in local community events.

Work Experience (especially as it relates to the Commission/Board for which you are applying):

Commissioner on Roseville Human Rights Commission since 2012 (currently serving as Vice Chair) Since 1995, I've amassed detailed professional experience in the intersection of information technology with "business" needs to include internet and communication technologies and direct application of these technologies for county, state, and federal clients. Specific employment history includes: Associate Director, Optum (United Health Group (current), Small Business Owner (Orthogonal Software Corporation) (2001-2013), Partner, software consulting firm (1998-2001).

Education:: BSc Electrical Engineering, University of Minnesota, Institute of Technology Various professional certifications

Civic and Volunteer Activities (Past and Present):: Commissioner on Roseville Human Rights Commission since 2012 (currently serving as Vice Chair) Mentor at the University of Minnesota College of Science

and Engineering Fundraiser for various charities Various volunteer/charity activities Member of Social Responsibility Committee, UnitedHealth Group CSD

Please state your reasons for wanting to serve on the Commission/Board.: I'm continually looking for ways to engage and serve my community – both in a global sense (i.e. humanity) and at the local level (i.e. Roseville and my immediate neighborhood). I've also had a life-long interest in politics, especially as it relates to the state and local level. Government often has the most impact on an individual's life at the local level, and as such I feel in serving on this commission I can directly help people, which is my ultimate goal for all volunteer activities.

What is your view of the role of this Commission/ Board?: Serve in an advisory capacity to the city council on community engagement issues, act as a general community liaison, provide an additional means for public interface with the city of Roseville, provide leadership on community engagement issues, and, of course, drive community engagement with the city across its entire population.

Any further information you would like the City Council to consider or that you feel is relevant to the appointment or reappointment you are seeking.: I've been a Roseville resident since April of 2003 and, having recently purchased a subsequent home in Roseville, I plan to continue raise my family in the city for many years to come. I've come to appreciate all that Roseville has to offer its citizens -- and I want to contribute.

Work Experience (especially as it relates to the Commission/Board for which you are applying): I am a Communication Specialist in the College of Liberal Arts, University of Minnesota. A large part of my job is devising communication strategies for engaging students, alumni, and donors with the College of Liberal Arts. This includes planning and marketing events, telling stories, and building communication channels.

Education:: B.A. Strategic Communication, U of M

Civic and Volunteer Activities (Past and Present):: I volunteer at many events at the University of Minnesota (outside of my work-related duties). Last spring I served as a volunteer check-in receptionist at the National Kidney Association's gala fundraising event.

Please state your reasons for wanting to serve on the Commission/Board:: I am interested in this role for three primary reasons:

- 1) To learn more about the ways to engage in the community myself - this seems like the perfect role to learn all about the opportunities available in Roseville!
- 2) To serve my community in a meaningful way that interacts with my professional interests.
- 3) To meet "neighbors" with both similar and diverse interests.

What is your view of the role of this Commission/ Board?: In my view the role of the Community Engagement Commission will be to examine the challenges and opportunities Roseville faces in bringing together its residents to build a shared sense of community, promote existing involvement activities, and brainstorm new ideas for engagement. I imagine the commission will provide insight and recommendations and will volunteer time to carry forward city-approved strategies.

Work Experience (especially as it relates to the Commission/Board for which you are applying):
Currently, I am the Director of Strategic Development for Nexus Community Partners, a community building intermediary operating in the Twin Cities (nexuscp.org). Nexus' mission is to "Build more engaged and powerful communities by supporting communities to expand their assets and foster social and human capital." We provide financial and technical support to community-based organizations who are working to create communities that reflect the vision and creativity of the people who live and work there. A primary strategy we support is community engagement.

My knowledge and understanding of community engagement has grown tremendously since I began at Nexus over 6 years ago. I've had the honor of working with and supporting numerous organizations from across the Twin Cities to implement effective community engagement efforts in their neighborhoods and communities. I have learned a lot about engagement and will continue to learn as this work is always evolving.

In addition to my other responsibilities, I oversee Nexus' "Building the Field of Community Engagement" initiative, a 3-year effort to demonstrate the value and raise the visibility of this important work. As part of this effort, we produced a short film, "Community at the Center", which discusses the fundamental values and principles of community engagement, and why it is necessary for the health of our

communities. To view the film visit: <http://nexuscp.org/our-work/building-the-field-of-community-engagement>.

Education:: BA, History, University of Connecticut, Storrs, CT MA, International Relations, American University, Washington, DC

Civic and Volunteer Activities (Past and Present):: Present:

- Certified Hospice Volunteer
- Friends of St. Paul Public Library, Perrie Jones Advisory Committee

Past:

- Homeownership Center, Emerging Markets Homeownership Initiative, Advisory Committee
- Volunteer teacher's aide, 2nd Grade, Arlington Public Schools (VA)

Please state your reasons for wanting to serve on the Commission/Board:: I believe I have something to contribute.

Throughout my career at Nexus, I have been supporting and learning from various community engagement practitioners across the Twin Cities. One key learning is that community engagement will look different from one community to the next. Whether you're working within a cultural context or a geographically defined context, community engagement must reflect your community, its vision, its needs and aspirations.

In addition, my husband and I bought our first home in Roseville 4 years ago and are raising our two children here. Roseville welcomed us to our new community and I want to ensure Roseville continues to welcome all who wish to call Roseville home.

What is your view of the role of this Commission/ Board?: As a member of the Task Force on Community Engagement, I contributed to the recommendations put before the City Council. During my tenure on the Task Force, I often struggled, as did my colleagues, with our different understandings of community engagement and its role in the city. I feel confident that the ordinance adopted by the City Council to establish a Community Engagement Commission gives enough structure for the Commissioners to work within, while leaving room for them to learn and adapt as they implement their responsibilities.

Any further information you would like the City Council to consider or that you feel is relevant to the appointment or reappointment you are seeking.: I don't believe I know of another city that has established a Community Engagement Commission. I commend you for your leadership, foresight and commitment to the residents of Roseville. As the city's demographics continue to shift, how do we ensure all of our residents feel welcome, connected and involved in their city? I would be honored to serve as a Community Engagement Commissioner to continuously ask and find answers to that question.

I look forward to hearing from you, and being able to contribute my experience, knowledge and commitment to the Community Engagement Commission.

Thank you.

How many years have you lived in Roseville?: 9.5

Work Experience (especially as it relates to the Commission/Board for which you are applying): I resigned from my career of 17 years at Honeywell as a metallurgical engineer and failure analysis expert in July of 2013. In September of 2013 I helped create the Volunteer Development and Coordination position for the Roseville Community Support Center (CSC). The CSC opened its doors in mid-November with a goal to help our Roseville neighbors connect with not only resources but also with a community support network. The CSC partners with Roseville churches, businesses, city government, and local organizations to build the capacity of Roseville to support our neighbors through difficult times and build resiliency against insecurity in housing, food and income.

In December of 2013 I accepted a part-time position at St. Michael's Lutheran Church coordinating the volunteer activities in the Social Ministry programming.

I have served as Secretary and President of the Brimhall PTA and remain active in recruiting volunteers and promoting a welcoming and inclusive community at Brimhall.

Education:: I have a Bachelor of Science in Metallurgical Engineering from the University of Wisconsin-Madison and a Masters Degree in Metallurgical Engineering from Colorado School of Mines. I have maintained my Professional Engineer License through my 17 year career.

Civic and Volunteer Activities (Past and Present):: My work at the Community Support Center (CSC) in Roseville is all voluntary, typically about 12 hours per week. It involves networking with numerous organizations, churches and working groups to communicate the goals of the CSC, identify community resources and recruit volunteers. My organizational skills have helped tackle the large to-do lists associated with the start-up of a new organization.

Also as mentioned above, I am currently an active member of the Brimhall PTA, and have served as PTA secretary and President within the past 5 years. This role involved coordinating many disparate schedules and sometimes agendas to create a welcoming and supportive environment for ALL the Brimhall students and their families. I have found that one of the best ways to build community is to be present at the school and directly interact with students and their parents, being able to greet families when you see them out in the community makes a huge impact.

I have also participated in the Emergency Response Team training offered by Falcon Heights and have participated in several practice and service events in coordination with the surrounding communities. I have lead the effort in our neighborhood for the National Night Out, signing us up for police and fire stops and coordinating all the communications to the neighbors.

My family has participated in many volunteer opportunities through the years and will continue to do so as it enriches us as well as our community.

Please state your reasons for wanting to serve on the Commission/Board:: I would like to participate in the Community Involvement Commission to help keep Roseville a strong, active and supportive community. I am proud to raise my children here and want to do all I can to make Roseville a great place for all residents.

What is your view of the role of this Commission/ Board?: I have read the Overview and feel very comfortable with the descriptions. I would describe myself as a collaborator when in a role such as this would be and the described functions of

- review
- advise
- recommend
- explore

fit well with my expectations of this commission.

How many years have you lived in Roseville?: 6 Years

Work Experience (especially as it relates to the Commission/Board for which you are applying): I currently work as a project manager for an IT Integration company called CompuCom Systems, Inc. I oversee structured cabling and security camera installations for our customer Target. I manage projects in both the US and Canada and am responsible for learning the customer's needs and understanding their objectives so that I can build and implement an installation program for our third party associates to carry out. This may not seem like it relates to the Community Engagement Commissions board, but I feel that it is quite relevant. My job is basically to break information down so that it can be easily interpreted by the field technicians. I want to ensure that my instructions are clear and concise without leaving any gaps in the message. I need to keep in close contact with my field team and relay any challenges to the client while also offering solutions. I think this could really come in handy because I work with people from a wide range of backgrounds. I work closely with folks in South and Central America, throughout various regions of the United States and throughout Canada, including Quebec. Not only are there language barriers that I must seek ways to work through, but there are also a wide

range of cultural customs and practices that I need to be cognizant and respectful of. I've worked with this organization for almost three years and worked in a similar role for a local low-voltage cabling contractor prior for four years. My job is to basically act as the conduit for relaying information from the customer to the installation team and back. It sounds to me like one of the primary objectives of this commissions board is to do just that. I would also like to note that I have held a number of leadership roles as part of my volunteer commitments so I am comfortable working with a wide range of people in that context, as well.

Please state your reasons for wanting to serve on the Commission/Board:: I love Roseville and am proud to call it home. I am a firm believer that we each play an important role in creating a lively community, whether it be the act of serving on one of the Citizen Commission Boards or simply smiling and waving at a neighbor. I am grateful that the City of Roseville seeks active participation from its citizens, and I would be honored to serve on the Community Engagement Commission because it's a cause that is very dear to my heart. If we work together to ensure that everyone is given an opportunity to express their thoughts and opinions when it comes to building Roseville's future, I truly believe people will become more engaged and take more pride in their homes and the city's public spaces. This is a win/win for every single one of us. I would be thrilled to help foster this outreach, and I love the idea of bringing people of all ages and backgrounds together to serve the greater good through volunteer events and community gatherings. I think there are a lot of opportunities for this commissions group to empower members of our community to really engage themselves, and I want to play an active role in helping us get there.

What is your view of the role of this Commission/ Board?: I believe the Community Engagement Commission exists to ensure that people of all ages and backgrounds are provided with the opportunity to actively participate in the shaping of Roseville as a community. The Oxford Dictionary defines Community as "A feeling of fellowship with others." I believe this commission serves to foster feelings of fellowship among everyone who calls Roseville their home or place of business. By working to ensure people have an opportunity to be actively engaged in the happenings within Roseville, we empower them to improve their standards of living and everyone benefits as a whole. I see this commission exploring various electronic and physical formats for communicating with residents and businesses, increasing the number of community engagement events and also connecting volunteers with causes in need. These efforts will work to build those sought after feelings of fellowship which will continue to create a strong and vibrant community.

Any further information you would like the City Council to consider or that you feel is relevant to the appointment or reappointment you are seeking.: For the last several years, I have picked up litter throughout various areas of Roseville because I take pride in our community, and I want the beauty of Roseville to shine. I do this using my own resources and not through any programs, but I would love to

team up with others so it doesn't seem like such a daunting task (because sometimes it does!). I know there are a great number of people throughout the city who share my passion for a cleaner community, so I think it would be really cool to develop a volunteer forum to connect like-minded people who want to step up when they see a need somewhere in the city. I think the Community Engagement Commission could launch a program that would really bring people together and would benefit the community on multiple levels.

How many years have you lived in Roseville?: 7

Work Experience (especially as it relates to the Commission/Board for which you are applying): Most of my career has been as a business analyst and consultant. It means I am very good at talking to all kinds of people, finding out what their problems or concerns are, devising creative solutions, and leading teams to do whatever work is necessary to see a project thru to successful completion.

Education:: B.S., Business Administration, Winona State University.
M.A., Gerontology, Bethel University

Civic and Volunteer Activities (Past and Present):: • Neighborhood and Community Engagement Task Force – At Large Member , City of Roseville, May 2011 to October 2012.

• Initiator and Community Promoter of Nextdoor.com for Roseville MN, March 2012 to present.

- Communities for a Lifetime Task Force, Roseville Area Community Education, January 2013 to February 2014 • Member-Roseville Area Senior Program Advisory Group, January 2014 to present.
- Board Member-North Suburban Senior Council Board Member, August 2012 to December 2013 (when NSSC dissolved.) • Educational Activity and Volunteer Mgmt Volunteer, Roseville Area Senior Program , Dec 2012 to present • Board Member, Viital Aging Network, March 2013 to present • EVOLVE Project Coordinator , Vital Aging Network, September 2012 to September 2013.
- Community Outreach Speaker/Senior Surf Day Instructor, Metropolitan Area Agency on Aging-January 2011 to present.
- Multi-Cultural Ambassador, Honoring Choices Minnesota, November 2011 to present.

Please state your reasons for wanting to serve on the Commission/Board:: Three years ago I was fortunate to be able to take a break from full-time work. I went back to school to study for my Masters degree in Gerontology (study of aging). What surprised me was the sense of purpose it gave me.

First , to do whatever I can do to help others appreciate the invaluable asset our senior population can be if valued and engaged, and to do what I can to provide opportunities for engagement. I am doing that with the Vital Aging Network and the EVOLVE class that is happening right now in Roseville, but I believe that is just the beginning of what we can do in our community.

Second, belonging to a community is a very important element of healthy aging, but many people do not know what to do to become part of a community. That was me 3 years ago, but circumstances led me to join the Neighborhood and Community Engagement Task Force as a way to get involved. As a result, I went out on a limb and had the first Night to Unite party in my neighborhood. One half of the invited households came which showed me that people were looking for an opportunity to connect. About the same time, I decided to create the first Nextdoor neighborhood, and before we had even finished delivering the invitation flyers, 4 people had already signed up. 14 more neighborhoods and more than 1700 members later, this online community continues to grow.

I want to go further and do more. I want to be part of team that shares a vision and wants to explore other ideas that will strengthen our community. A team that wants to make things happen! Healthy aging? Community is healthy at every age!

What is your view of the role of this Commission/ Board?: I believe the role of the Commission is to generate ideas, and with the approval of the City Council, to turn those ideas into action. This commission is about building and strengthening relationships, between the City, the residents, and businesses.

Any further information you would like the City Council to consider or that you feel is relevant to the appointment or reappointment you are seeking.: This commission is a great addition for the City of Roseville. There are opportunities for improvement everywhere, but it takes a group of people focused on engagement to identify those opportunities and to suggest solutions.

Whether I become a commission member or not, I would suggest that the commission evaluates the commission application process. I noticed two things immediately. First, it centers around an online application, which has small boxes (with no way to know how long answers can be), and no way to save data once you start to complete it. An alternative to consider is a downloadable form, with the options for submission (email, fax, mailing address) prominently available, rather than at the end of the application. Second, the arrangement of the application questions might also be worth reviewing. An

application can be intimidating, and I imagine that starting with work history, then formal volunteer experience might be a barrier for some people, and might not be the most important considerations.

I understand that information provided in this application may be distributed by the City to the public including, but not limited to, being posted on the City of Roseville website. Please state your reasons for wanting to serve on the Commission/Board:: I am passionate about the City of Roseville and want to see it continue to thrive for years to come. Finances are one of the key ways we indicate our priorities as a community and I believe that my skills and background position me well to help inform those priorities.

What is your view of the role of this Commission/ Board?: The city's budget process, financial policies and funding strategies are critical to helping shape our city today and into the future.

As a Commission, I hope that our advice on short and long-term financial policies helps ensure a prudent approach to fiscal governance for the city.

As we recommend budget goals, including tax and spending levels, we need to carefully balance fiscal responsibility and appropriate use of existing and potential new revenue sources to invest in the future of Roseville while maintaining our critical ongoing commitments.

The Commission also has an important responsibility to ensure that financial reporting is both transparent and readily accessible to allow residents to quickly and easily understand how the city is spending their money and how that spending is aligned with the priorities set forth.

Finally, the Commission plays an important oversight role, reviewing all aspects of city finances, including financial information, audit reports, financial controls as well as city's investment policy and portfolio

How many years have you lived in Roseville?: 17

Work Experience (especially as it relates to the Commission/Board for which you are applying): I am a practicing Certified Public Accountant and have been duly licensed in Minnesota since 1976. I am a former business owner, officer and director of approximately 25 community banks in the upper mid-west and was directly involved in establishing and monitoring annual operating and capital asset budgets and reporting the annual financial results to the various bank regulatory agencies. In 1973 I joined a CPA firm in Edina and have been a CPA firm owner/operator ever since. The primary function of the CPA firms over the years was in the corporate and individual income taxes area and management of the various banking organizations. In May, 2012, I began serving on the City of Scandia Wastewater Advisory Committee. I recently agreed to a four year term extension expiring on December 31, 2017. The committee reviews financial matters related to the Big Marine Lake residential waste water systems and the City proper waste water system and makes recommendations to the City Council to promote and enhance efficiencies and monitor and review of the operating and capital budgets for the City.

Education:: I graduated from the University of Minnesota (Minneapolis) in July 1972 with a BSB Accounting Degree. I passed the Certified Public Accountant examination in 1976. I have maintained the annual continuing education requirements of 40 hours per year since 1976. I have completed

approximately one-third of the course work at the University of Minnesota for the Masters of Business in Taxation from approximately 1989 through 1991.

Civic and Volunteer Activities (Past and Present):: City of Scandia Waster Water Commission Eagle Brook Church volunteer committees

Please state your reasons for wanting to serve on the Commission/Board:: I may have an average understanding of how to properly account for any entities operating income, expense or balance sheet related assets and liabilities. I may have an opportunity to share this knowledge and experience with those on the committee and make prudent recommendations to the City Council. I believe the overall goal of the Committee is to "look at the big picture", from the short term and long term financial perspective and make recommendations that are in the best interests of all of us who call Roseville our home.

What is your view of the role of this Commission/ Board?: The Commission has to independently determine what is solely in the best financial interests for the residents of the City.

Any further information you would like the City Council to consider or that you feel is relevant to the appointment or reappointment you are seeking.: None at this time.

How many years have you lived in Roseville?: 1

Work Experience (especially as it relates to the Commission/Board for which you are applying): 9/2009 - Present - Target Corporation Senior Group Manager, Global Crisis Management & Business Continuity (2009 – Present)

- Enterprise functional executive responsible for global programs for business continuity, crisis & emergency management, organizational resilience, and centralized security operations. Directly led 6 mid-level executives and an overall team of 42. Reports directly to the Chief Security Officer.
- Led turnaround of business continuity and disaster recovery program. Consolidated multiple risk & continuity approaches into a single, unified enterprise program. Improved senior executive and board visibility to corporation's resilience through clear metrics & regular interaction.
- Developed risk evaluation, mitigation, and governance strategy to enable safe and resilient market entry by Target Sourcing Services into high-risk markets (ex: Haiti & Myanmar).

- Improved disaster recovery capability through leadership of a \$12M multi-datacenter high-availability strategy. Reduced recovery time from four days to less than four minutes with minimal data loss.
- Established risk governance, mitigation, and continuity approach for startup of Target Canada (\$2B+ startup). Successfully transitioned process to run-state in early 2013.
- Evolved Target's Corporate Command Center (C3) from a single operations center to a multi-site integrated global operation with locations in Bangalore and Minneapolis, MN. Managed thousands of annual security contacts, escalated security incidents & business disruptions, and crisis situations. Led implementation of internally developed SharePoint based incident & operations management system.
- Prepared and successfully led corporation through a number of highly visible business disruptions. Captured more than \$24m in potentially lost sales during Hurricane Sandy response through rapid re-opening of stores and distribution centers in impacted area. Coordinated with public sector agencies.
- Trained as company media representative & spokesperson. Appeared frequently before media during crisis situations for corporation.

Special Assignment – Manager, Research & Analysis Center (March 2009 – June 2009)

- Handpicked for this critical, high profile role responsible for rapidly standing up a research & analysis center to provide direct analytical and research support to Target's senior executives during a successful effort to resist a proxy takeover by an activist investor.
- Established processes and capabilities to establish the factual basis for Target management's arguments against the activist's slate of directors.
- Developed opposition research & analysis capability to "raise the risk quotient" against activist slate and develop lines of attack/counterattack against their approach.
- Implemented media monitoring & rapid response process with Target Communications & outside PR advisors to enable immediate response in public to activist coverage.

4/2007 - 9/2009

Target Corporation - Manager, Innovation

2/2006 - 4/2007

Target Corporation - Manager, Planning & Design

8/1993 - 2/2006

Target Corporation - Various management positions

In each of these roles, I've had ever-increasing budget & financial responsibility. I've led capital projects and programs in excess of \$200M and managed expense budgets of \$14M and higher. I've extensive experience with risk, risk management, human resources, risk mitigation, and security / law enforcement issues.

Education:: MBA, Carlson School of Management, The University of Minnesota (Candidate, expected May 2014).

Certificate - National Preparedness Leadership, Harvard University, The John F. Kennedy School of Government, June 2012.

BS, Criminal Justice Administration, University of Phoenix, June 2008.

Civic and Volunteer Activities (Past and Present):: RETAIL INDUSTRY LEADERS ASSOCIATION (RILA) – ARLINGTON, VA 2012–Present

Vice Chairman, Disaster Response & Preparedness Committee

- Co-lead committee charged with developing policies and strategic alliances for the retail sector with state & federal emergency management and homeland security agencies.

NATIONAL EMERGENCY MANAGEMENT ASSOCIATION – LEXINGTON, KY 2011–2013

Chairman, Private Sector Committee & Member of the Board of Directors

- Chair NEMA's Private Sector Committee. Serve as principal advisor to the board, officers, and state emergency management directors on strategies to engage the private sector.

Please state your reasons for wanting to serve on the Commission/Board:: My wife and I have settled in Roseville in the long-term, having constructed a new home here in 2013 and relocating from Washington County. I'm looking for a way to better use my experience and education to serve my neighbors and local community.

My time at the University of Minnesota pursuing my MBA has given me a strong interest in doing more in the finance space - I believe this commission could benefit from my private sector experience and other non-profit board experience.

What is your view of the role of this Commission/ Board?: The Commission is chartered to provide advice on short and long-term guidance for the finances of the City of Roseville - including reviewing budget goals, tax goals, forecasts, capital plans, audits, and financial controls.
