Twin Cities Support Group for Persons with Lewy Body Dementia

Persons in the early stages of LBD who would benefit from communicating with others about living with this disease are welcome to attend. Our goal is to provide mutual support and companionship as we share experiences and resources to help us navigate the challenges of Lewy Body Dementia.

Carepartners are also invited. We know that this journey is a team effort! (Persons who may need assistance during the meeting should be accompanied.)

Paula Biever and Jeanne Schwietz serve as the support group facilitators. Paula and her husband Erik have been the facilitators of the MN E Metro LBD Caregiver Support Group since 2012. Jeanne was one of the founding members of that support group which was started in 2006. Paula is also a volunteer with the LBD Association and a member of the Roseville Alz/Dementia Community Action Team.

For more information or to be placed on the support group emailing list, email paula.biever@gmail.com or call 651-641-0130.
